Puzzle Game

Notepad +

Notepad

What is notepad+?

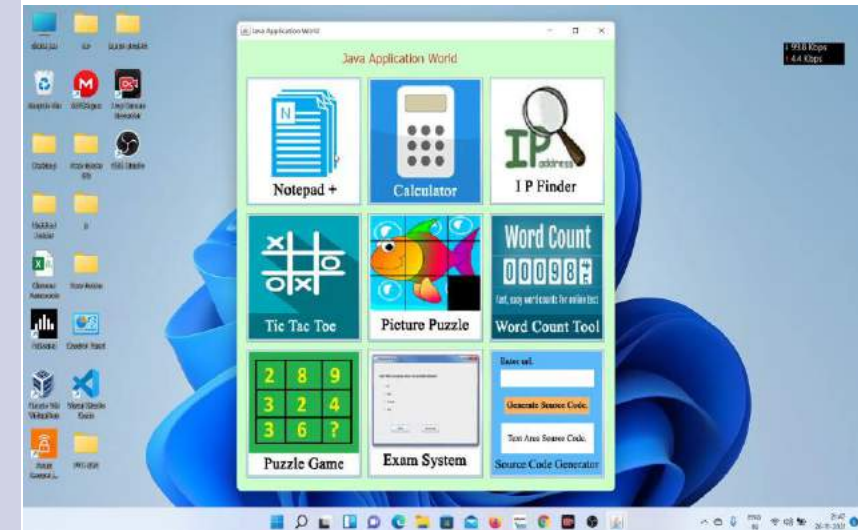

Notepad is a **text editor**, an app specialized in editing plain text. It can edit text files (bearing the ".txt" filename extension) and compatible formats, such as batch files, INI files, and log files. It can read and write plain texts encoded in numerous forms such as ASCII, UTF-8, and UTF-16.

Why to use?

- Easy to use in mobile phones , laptops and tabs.
- Secures our data for lifetime
- Easy to print our end result of the notepad

Features?

syntax coloring, manual code page selection, external changes, visible line-endings, visible line-wrap indication and many more.

Calculator

What is calculator?

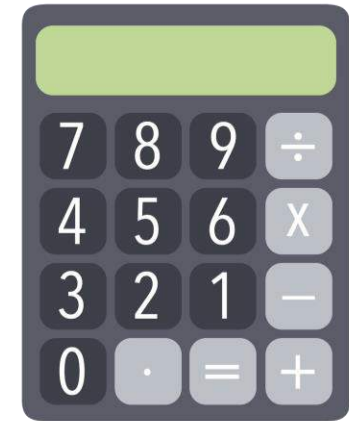

A machine which allows people to do math operations more easily and error free

Why to use?

- Help to solve more problems in less time
- Increase the number of solutions decreasing complexity of the problems

Impacts?

Profound impact on the world, making computations quicker and more exact

IP Finder

What is I.P. Finder?

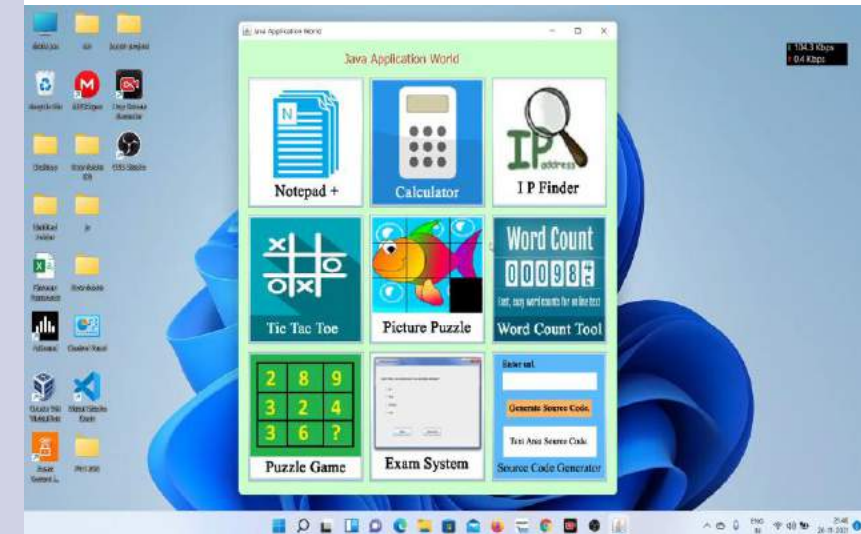

IP finder is a tool that is used to find your IP addresses and using that various other information of the devices on your network. So, in short, the IP finder finds your network for devices and information relevant to them using that IP

How?

Here the user just need to enter the URL of the website and push the search button tool will automatically search for the respective IP address and showcase that.

Benefits?

- Deriving a complete picture of your IP resource usage with an IP scanning software
- Increasing network performance by optimizing IP space fragmentation and utilization
- Staying ahead of IP resource exhaustion and capacity planning

Tic Tac Toe

What is tic tac toe?

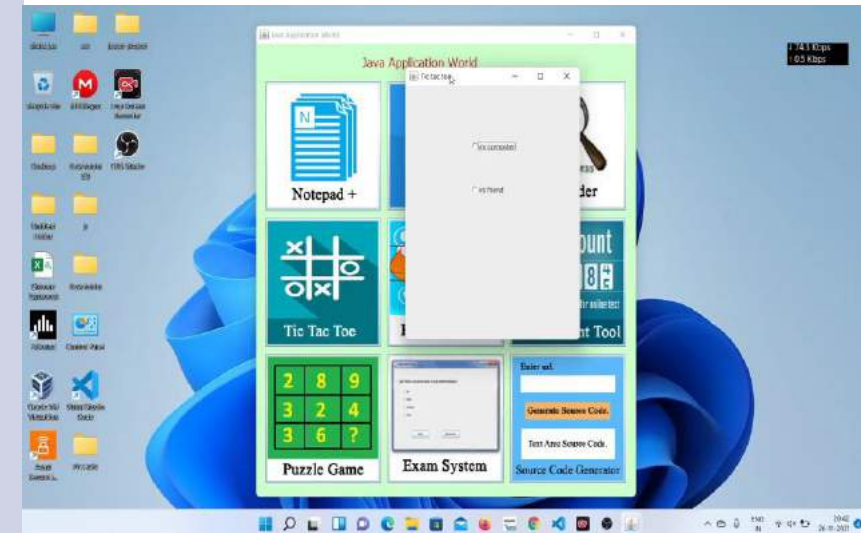

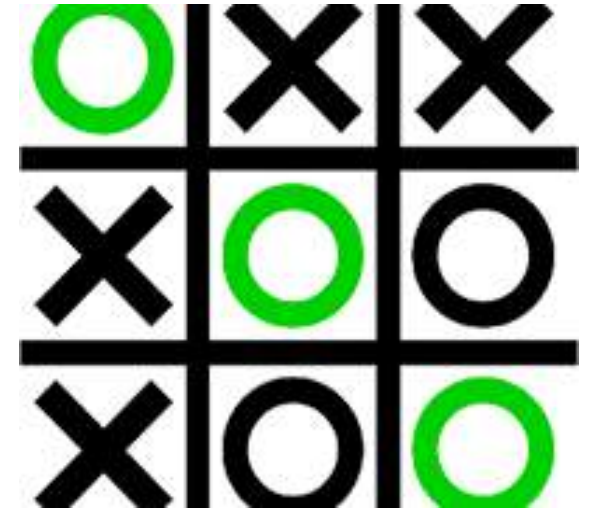

Tic-tac-toe is a paper-and-pencil game for two players who take turns marking the spaces in a three-by-three grid with X or O. The player who succeeds in placing three of their marks in a horizontal, vertical, or diagonal row is the winner. It is a solved game, with a forced draw assuming best play from both players

How to play?

Tic-tac-toe is played on a three-by-three grid by two players, who alternately place the marks X and O in one of the nine spaces in the grid. There is no universally-agreed rule as to who plays first, but in this article the convention that X plays first is used.

Beneficial uses

- Helps Improve hand eye coordination.
- Helps encourage better social interaction by better collaborative play.
- Help children improve their concentration.
- Often used as a pedagogical tool for teaching the concepts of good sportsmanship and the branch of artificial intelligence that deals with the searching of game trees.

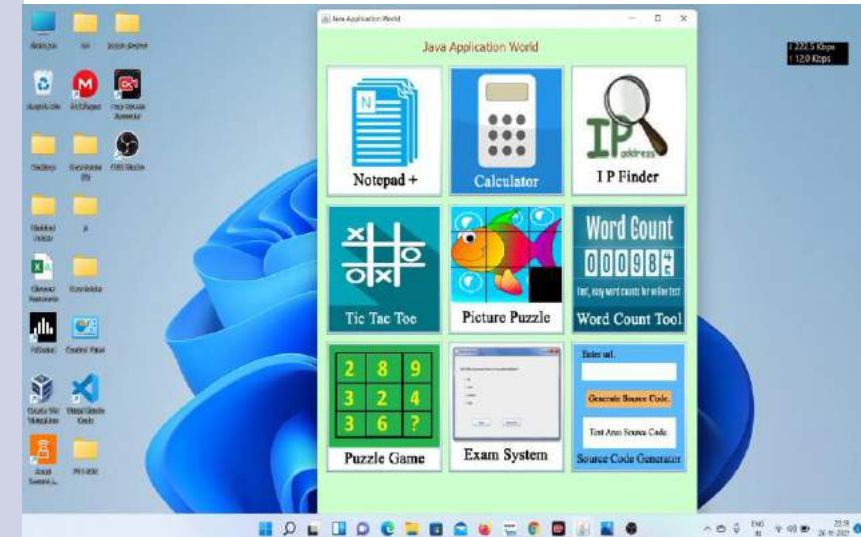

Word Count Tool

What is count tool?

The word count is the number of words in a document or passage of text. Word counting may be needed when a text is required to stay within certain numbers of words.

include features such as syntax coloring, code folding, regular expressions, macros, manual code page selection, themes, sorting, case changes, external change detection, matching braces, visible line-endings, and visible line-wrap indication.

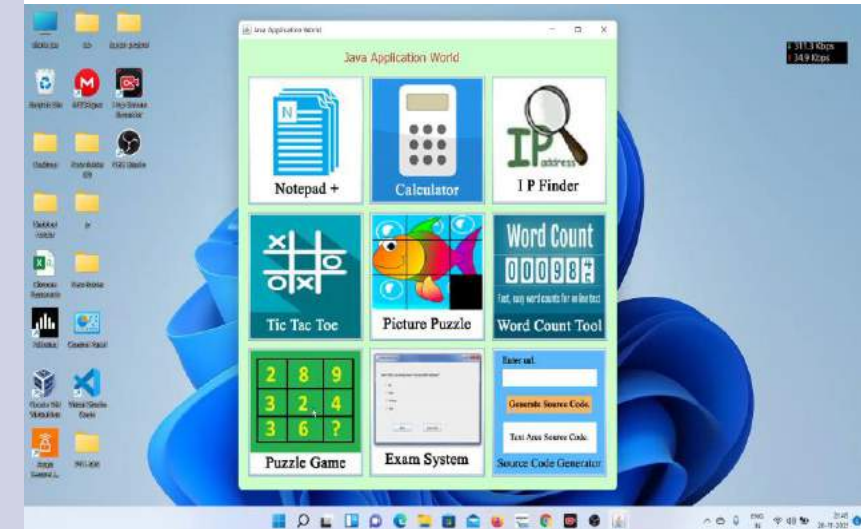

Puzzle Game

What is the Puzzle Game?

Notepad is a **text editor**, i.e., an app specialized in editing plain text. It can edit text files (bearing the ".txt" filename extension) and compatible formats, such as batch files, INI files, and log files. Notepad can read and write plain texts encoded in ASCII, UTF-8, and UTF-16.

include features such as syntax coloring, code folding, regular expressions, macros, manual code page selection, themes, sorting, case changes, external change detection, matching braces, visible line-endings, and visible line-wrap indication.

Exam System

What is Quiz?

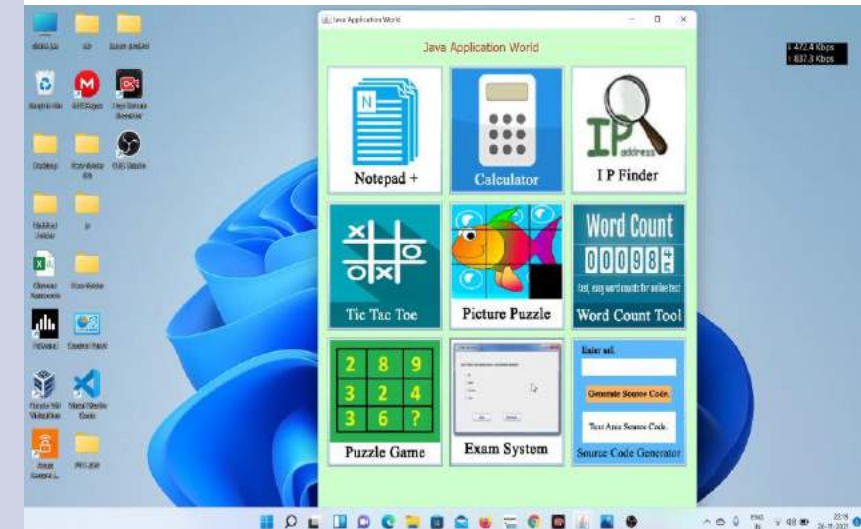

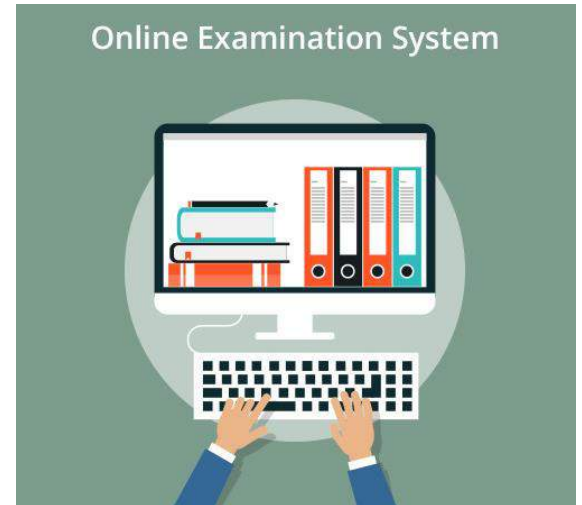

Quiz is a form of game or mind sport in which players attempt to answer questions correctly about a certain or variety of subjects. Quizzes can be used as a brief assessment in education and similar fields to measure growth in knowledge, abilities, or skills.

How to use Quiz

Simply just open the app then start quiz , all the questions are M.C.Q choose the most appropriate answer.

Impacts of Quiz

Quizzes encourage pupils' self awareness of progress and self assessment

Source Code Generator

What is Source Code Generator?

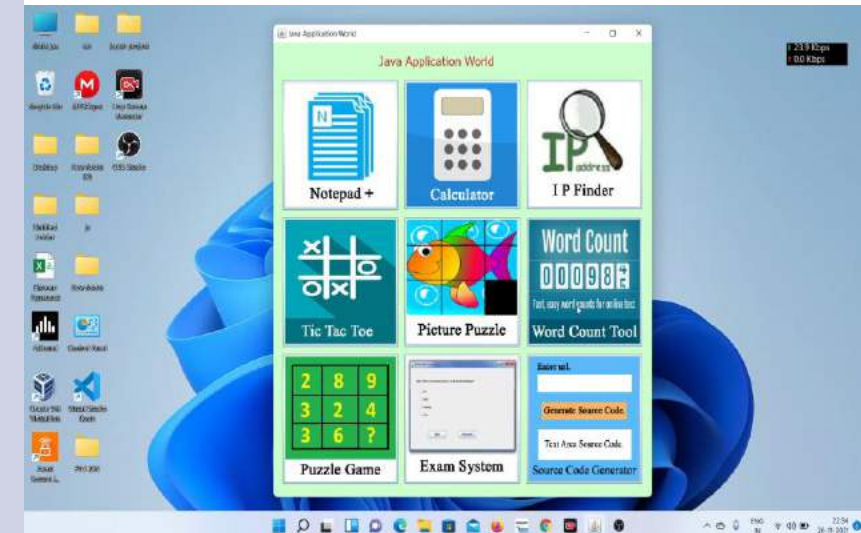

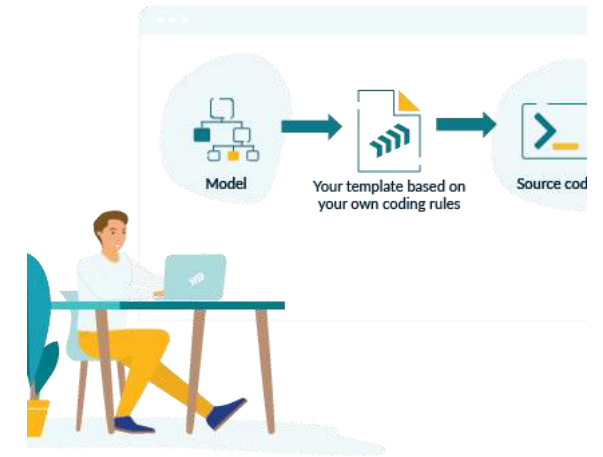

webpages and internet pages are based in part on very complicated and long instructions to your computer. This command text is called source code and source code generator created that code for you for any webpage/internet page

How to use?

Here the user just need to enter the URL of the website and push the search button, generator will automatically generate the source code for the entire webpage

Benefits?

- reduces Code Rewriting
- Stable underlying architecture means less time wasted
- No hand-coding = less errors

SUMMARY

Subtitle

- Open the Design Ideas pane for instant slide makeovers.
- When we have design ideas, we'll show them to you right there.

Subtitle

- Add text, images, art, and videos.
- Add transitions, animations, and motion.
- Save to OneDrive, to get to your presentations from your computer, tablet, or phone.

Subtitle

- This PowerPoint theme uses its own unique set of colors, fonts, and effects to create the overall look and feel of these slides.
- PowerPoint has tons of themes to give your presentation just the right personality.
